### 1. Scope

This specification defines general provisions as well as inspection standards for TFT module supplied by Kingtech Group Co.,Ltd.

If the event of unforeseen problem or unspecified items may occur, naturally shall negotiate and agree to solution

### 2. General Information

| Тітем                          | STANDARD VALUES                    | UNITS |
|--------------------------------|------------------------------------|-------|
| LCD type                       | 7.0"TFT                            |       |
| Dot arrangement                | 800×3(RGB)×480                     | dots  |
| Color filter array             | RGB vertical stripe                |       |
| Display mode                   | TN / Transmissive / Normally white | -     |
| Gray Scale Inversion Direction | 6 o'clock                          |       |
| Eyes Viewing Direction         | 12 O'clock                         |       |
| Module size                    | 164.9(W)×100(H)×5.7(T)             | mm    |
| Active area                    | 154.08(W)×85.92(H)                 | mm    |
| Dot pitch                      | 0.1926(W)×0.1790(H)                | mm    |
| Interface                      | 24-bit Parallel RGB Interface      |       |
| Operating temperature          | -20 ~ +70                          | °C    |
| Storage temperature            | -30 ~ +80                          | °C    |
| Back Light                     | 27 White LED                       |       |
| Weight                         | TBD                                | g     |

E-mail: Helen@kingtechgroup.cn

| THILDHIGO L |       |  |
|-------------|-------|--|
| 1           | LED-K | LED backlight (Cathode).                                     |
| 2           | LED-A | LED backlight (Anode).                                       |
| 3           | GND   | Ground.  |
| 4           | VDD   | Power supply.  |
| 5~12        | R0~R7 | Red Data   |
| 13~20       | G0~G7 | Green Data   |
| 21~28       | B0~B7 | Blue Data  |
| 29          | GND   | Ground.  |
| 30          | DCLK  | Clock  |
| 31          | DISP  | Display on/off   |
| 32          | HSYNC | Horizontal sync input in RGB mode.                           |
| 33          | VSYNC | Vertical sync input in RGB mode.                             |
| 34          | DE    | Data enable input. Active high to enable the input data bus. |
| 35          | NC    | No connection.   |
| 36          | GND   | Ground.  |
| 37          | NC    | No connection.   |
| 38          | NC    | No connection.   |
| 39          | NC    | No connection.   |
| 40          | NC    | No connection.   |

### 5. Absolute Maximum Ratings

| Item                   | Symbol | Min. | Max. | Unit |
|------------------------|--------|------|------|------|
| Digital Supply Voltage | VDD    | -0.3 | 5.0  | V    |
| Operating Temperature  | Тор    | -20  | 70   | °C   |
| Storage Temperature    | Тѕт    | -30  | 85   | °C   |
| Storage Humidity       | HD     | 20   | 90   | %RH  |

### 6. DC Characteristics

| Item                   | Symbol | Min.    | Тур. | Max.    | Unit | Remark |
|------------------------|--------|---------|------|---------|------|--------|
| Digital Supply Voltage | VDD    | 3.0     | 3.3  | 3.6     | V    | -      |
| Logio Input Voltago    | VIH    | 0.7DVDD | -    | DVDD    | V    | -      |
| Logic Input Voltage    | VIL    | GND     | -    | 0.3DVDD | V    | -      |

Note (1) Measurement Setup: The LCD module should be stabilized at given temp. 25°C for 15 minutes to avoid abrupt temperature change during measuring. In order to stabilize the luminance, the measurement should be executed after lighting backlight for 15 minutes in a windless room.

# Add: 2nd Floor, Building C, Jia Huang Yuan Technical Park, Tiegang, Xixiang, Bao'an District, Shenzhen city, Guangdong province, P.R.China 518126. E-mail: Helen@kingtechgroup.cn TEL: 86-755- 23037763 Mobile: +86-139-2528-0716 Web: www.kingtechgroup.cn

Note (3) Definition of Contrast Ratio (CR)

The contrast ratio can be calculated by the following expression

Contrast Ratio (CR) = L63 / L0

L63: Luminance of gray level 63, L0: Luminance of gray level 0

Note (4) Definition of response time

Note (5) Definition of Transmittance (Module is without signal input) Transmittance = Center Luminance of LCD / Center Luminance of Back Light x 100%

Note (6) Definition of color chromaticity (CIE1931)

Color coordinates measured at the center point of LCD

### 11. Inspection Standard

#### 11.1. QUALITY :

E-mail: Helen@kingtechgroup.cn

THE QUALITY OF GOODS SUPPLIED TO PURCHASER SHALL COME UP TO THE FOLLOWING STANDARD. 11.1.1. THE METHOD OF PRESERVING GOODS

Mobile: +86-139-2528-0716

AFTER DELIVERY OF GOODS FROM AMSON TO PURCHASER. PURCHASER SHALL CONTROL THE LCM AT -10  $^\circ\!C$  TO 40  $^\circ\!C$  ,AND IT MIGHT BE DESIRABLE TO KEEP AT THE NORMAL ROOM TEMPERATURE AND HUMIDITY UNTIL INCOMING INSPECTION OR THROWING INTO PROCESS LINE.

#### 11.1.2. INCOMING INSPECTION

(A) THE METHOD OF INSPECTION

IF PURCHASER MAKE AN INCOMING INSPECTION, A SAMPLING PLAN SHALL BE APPLIED ON THE CONDITION THAT QUALITY OF ONE DELIVERY SHALL BE REGARDED AS ONE LOT.

(B) THE STANDARD OF QUALITY

ISO-2859-1 (SAME AS MIL-STD-105E), LEVEL II SINGLE PLAN.

| 1 01 (01) |
|-----------|
| AQL(%)    |
| 0.4 %     |
| 0.65 %    |
| 1.5 %     |
| 1.5 %     |
|           |

TEL: 86-755- 23037763

EVERY ITEM SHALL BE INSPECTED ACCORDING TO THE CLASS.

(C) MEASURE

IF AS THE RESULT OF ABOVE RECEIVING INSPECTION, A LOT OUT IS DISCOVERED. PURCHASER SHALL BE INFORM SELLER OF IT WITHIN SEVEN DAYS. BUT FIRST SHIPMENT WITHIN FOURTEEN DAYS.

11.1.3. WARRANTY POLICY

AMSON WILL PROVIDE ONE-YEAR WARRANTY FOR THE PRODUCTS ONLY IF UNDER SPECIFICATION OPERATING CONDITIONS. AMSON WILL REPLACE NEW PRODUCTS FOR THESE DEFECT PRODUCTS WHICH UNDER WARRANTY PERIOD AND BELONG TO THE RESPONSIBILITY OF AMSON.

- 11.2. CHECKING CONDITION
- 11.2.1. CHECKING DIRECTION SHALL BE IN THE 45 DEGREE AREA TO FACE THE SAMPLE.
- 11.2.2. CHECKER SHALL SEE OVER 300±25 mm. WITH BARE EYES FAR FROM SAMPLE AND USING 2 PCS. OF 20W FLUORESCENT LAMP.

### 12. Handling Precautions 12.1 Mounting method

The LCD panel of KingtechTFT module consists of two thin glass plates with polarizes which easily be damaged. And since the module in so constructed as to be fixed by utilizing fitting holes in the printed circuit board.

Extreme care should be needed when handling the LCD modules.

### 12.2 Caution of LCD handling and cleaning

When cleaning the display surface, Use soft cloth with solvent

[Recommended below] and wipe lightly

- Isopropyl alcohol
- Ethyl alcohol

Do not wipe the display surface with dry or hard materials that will damage the polarizer surface.

Do not use the following solvent:

- Water
- Aromatics

Do not wipe ITO pad area with the dry or hard materials that will damage the ITO patterns Do not use the following solvent on the pad or prevent it from being contaminated:

- Soldering flux
- Chlorine (CI), Sulfur (S)

If goods were sent without being silicon coated on the pad, ITO patterns could be damaged due to the corrosion as time goes on.

If ITO corrosion happen by miss-handling or using some materials such as Chlorine (CI), Sulfur (S) from customer, Responsibility is on customer.

### 12.3 Caution against static charge

The LCD module use C-MOS LSI drivers, so we recommended that you:

Connect any unused input terminal to POWER or GROUND, do not input any signals before power is turned on, and ground your body, work/assembly areas, and assembly equipment to protect against static electricity.

### 12.4 packing

- Module employs LCD elements and must be treated as such.
- Avoid intense shock and falls from a height.
- To prevent modules from degradation, do not operate or store them exposed direct to sunshine or high temperature/humidity

### 12.5 Caution for operation

- It is an indispensable condition to drive LCD's within the specified voltage limit since the higher voltage then the limit cause the shorter LCD life.
- An electrochemical reaction due to direct current causes LCD's undesirable deterioration, so that the use of direct current drive should be avoided.
- Response time will be extremely delayed at lower temperature then the operating temperature range and on the other hand at higher temperature LCD's how dark color in them. However those phenomena do not mean malfunction or out of order with LCD's, which will come back in the specified operation temperature.
- If the display area is pushed hard during operation, some font will be abnormally displayed but it resumes normal condition after turning off once.
- Slight dew depositing on terminals is a cause for electro-chemical reaction resulting in terminal open circuit.

Usage under the maximum operating temperature, 50%Rh or less is required.

### 12.6 storing

In the case of storing for a long period of time for instance, for years for the purpose or replacement use, the following ways are recommended.

- Storage in a polyethylene bag with the opening sealed so as not to enter fresh air outside in it. And with no desiccant.
- Placing in a dark place where neither exposure to direct sunlight nor light's keeping the storage temperature range.
- Storing with no touch on polarizer surface by the anything else. [It is recommended to store them as they have been contained in the inner container at the time of delivery from us

### 12.7 Safety

- It is recommendable to crash damaged or unnecessary LCD's into pieces and wash off liquid crystal by either of solvents such as acetone and ethanol, which should be burned up later.
- When any liquid leaked out of a damaged glass cell comes in contact with your hands, please wash it off well with soap and water

### 13. Precaution for Use

### 13.1

A limit sample should be provided by the both parties on an occasion when the both parties agreed its necessity. Judgment by a limit sample shall take effect after the limit sample has been established and confirmed by the both parties.

### 13.2

On the following occasions, the handing of problem should be decided through discussion and agreement between responsible of the both parties.

- When a question is arisen in this specification
- When a new problem is arisen which is not specified in this specifications
- When an inspection specifications change or operating condition change in customer is reported to Kingtech TFT , and some problem is arisen in this specification due to the change
- When a new problem is arisen at the customer's operating set for sample evaluation in the customer site.

### 14. Packing Method

TBD
